Subject: bdcpc conveyance capacity briefing

Folks: we need to set up a conference call to discuss delta conveyance size alternatives asap. I believe that we can do this on the phone, hopefully with ron milligan sending around a powerpoint ahead of time that we can follow along as he walks us through it on the phone.

The need for this briefing arises because the BDCP steering committee needs to coalesce around a preferred conveyance alternative in the very near future. As we have discussed in recent weeks, it is very important that this decision be made via consideration of a range of alternatives, and that we federal agencies be satisfied as to both the process and outcome of this decision about a preferred alternative. This briefing will bring us up to speed on these issues.

We are looking for an hour time slot hopefully next week, or early the following week that we could all participate in this phone call.

Barb, could you please coordinate with everyone to try to find a time for this? Thanks very much.

Letty
